Professional Summary

Motivated and detail-oriented Computer Science student with a strong interest in software development, artificial intelligence, machine learning, and emerging technologies. Experienced in developing academic and personal projects using modern programming languages and tools. Strong problem-solving, teamwork, and communication skills with a continuous interest in learning new technologies.

Education

/ **Ballari institute of technology and management**
Bachelor of Technology in Computer Science and Engineering

2025 – 2029
Ballari, Karnataka

- CGPA: 8.56/ 10
- Relevant Coursework: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Artificial Intelligence

Technical Skills

Programming	Python, Java, C, C++, JavaScript
Web Development	HTML, CSS, JavaScript, React.js, Node.js
Database	MySQL, MongoDB, PostgreSQL
AI / ML	Machine Learning, Deep Learning, Pandas, NumPy, Scikit-learn
Tools	Git, GitHub, VS Code, Jupyter Notebook, Overleaf
Cloud / Other	Add your technologies here

Projects

Smart Hospital management system

Python, Machine Learning,css

- • Developed a Hospital Management System to streamline patient registration, appointment scheduling, doctor management, billing, and medical record management.
- • Implemented modules for managing patients, doctors, appointments, prescriptions, and hospital billing.
- • Designed a user-friendly interface to improve hospital workflow and efficient access to patient information.
- • Utilized Python, MySQL, HTML, CSS, and JavaScript for application development and database management.

Project Name 2

HTML, CSS, JavaScript

- Designed and developed a responsive web application for [purpose].
- Implemented interactive features using JavaScript.
- Created a user-friendly interface with responsive design principles.
- Managed project source code using Git and GitHub.

Project Name 3

Python, AI / ML

- Built an application that [briefly describe what the project does].
- Applied [algorithm/model/technology] to process and analyze data.
- Improved [performance/accuracy/automation] through [specific technique].

Certifications

- **Data science** – infosys026
- **Data Analytics job SImulation** – Deloitte026
- **Generative AI in E- Commerce and Digital Marketing** — Gen AI – Udemy 026
- **Certification Name** – Issuing Organization

Year

- Worked on [project/task] using [technologies].
- Developed and implemented [feature/system].
- Collaborated with team members to solve technical problems and deliver project requirements.

Achievements

- Achievement, competition, hackathon, award, or academic accomplishment.

- Participated in [Hackathon / Coding Competition / Technical Event].
- Solved [number]+ programming problems on [platform].

Additional Information

Languages	English, Kannada, Hindi
Interests	Artificial Intelligence, Software Development, Problem Solving, Technology
Availability	Open to internships and entry-level opportunities
